# About the Quiz

**F**or years, politics has been represented as a choice between left (or liberal) and right (or conservative). Growing numbers of thinkers agree this is far too narrow a view — and excludes millions of people. The political map on the Quiz gives a much more accurate representation of the true, diverse political world.

**The Quiz measures *tendencies*, not absolutes.**

Your score shows who most agrees with you in politics, and where you agree and disagree with other political philosophies. Since it was created in 1987, millions of people have taken the Quiz. It has been widely reprinted and is used in classrooms.
